## WORK EXPERIENCE

---

**Web Developer / Designer - Freelance** ( Jan 2020 - present )

During my college days, I have been working as a Web developer/designer freelance during my free time.

- Created websites/Designs for small businesses / Personal / Crypto / NFT
- Communicating with Clients
- Working with a group of 2 to 3 developers to brainstorm and decide the development process (e.i.AGILE, SCRUM, Waterfall, etc. )
- Created some prototypes and customize Logo / Image / Art

**Computer Repairman Assistant - Team C, Philippines** (June 2015 - July 2016)

*Team C is a small company created by a small group of college students that helps small businesses in regards to their computers, laptops, etc. which consist of:*

- Assemble / Repair / Upgrade computers
- Setup CCTV / Speakers / Wifi / Projectors
- Testing new Technologies ( Software to Hardware )

## PROJECTS

---

### ➤ War Card Games

- Created a fun little web game using ASP.net MVC architecture with Full Stack development technique with these technologies: **C#, SQL, JQuery** and **Bootstrap**.

### ➤ Liquor Store E-Commerce

- Deployed a full stack e-commerce website using **Spring Boot** to create an API on the backend. (**Java, Postgres, Javascript**)

### ➤ Spikey Boy™ ( Unity Game )

- Developed a simple 2d platformer game using **Unity** with **C#** as the language of choice and make use of the Asset store along with it. I provided a blog on my website for more info.

### ➤ Crypto / NFT website and designs

- Created a website for a crypto coin including Logo, Arts, and NFT. Using **Adobe XD, HTML, CSS**.
